

# Hasan Raza

## FRONT END DEVELOPER

Pakistan, PK | +92 334 4218912 | AhsanJay.Official@iCloud.com

### Summary

Innovative and results-driven Front-End Engineer with over two years of professional experience, specializing in HTML, CSS, JavaScript, Bootstrap, jQuery, and Knockout.js. Proven track record of delivering pixel-perfect, user-friendly interfaces for various industries, including healthcare and banking. Adept at collaborating with cross-functional teams to translate client requirements into engaging, responsive, and accessible web applications.

### Experience

- **Designed and developed responsive, interactive, and user-focused front-end interfaces** for multiple U.S. hospital systems, ensuring adherence to industry standards and best practices.
- **Led front-end development for two major banking applications**, including the creation and enhancement of UIs, notably contributing to the OBDX UI development project.
- **Collaborated closely with back-end developers, project managers, and UX/UI designers** to deliver seamless user experiences, resulting in a 20% increase in user satisfaction across client projects.
- **Implemented Bootstrap and custom CSS to establish consistent and scalable design systems**, achieving a 30% reduction in development time.
- **Utilized Knockout.js to build dynamic, data-driven web applications**, enhancing the performance and interactivity of client projects.

### Education

#### Front-End Engineer

*Self-Taught*

#### Continuous Learning through Online Courses and Practical Projects

- Completed various online courses on front-end technologies, including HTML, CSS, JavaScript, Bootstrap, and Knockout.js.
- Actively expanding knowledge in Node.js, React.js, and Angular.js through hands-on projects and self-paced learning.

### Skills & abilities

#### Front-End Development:

- **Core Technologies:** HTML5, CSS3, JavaScript (ES6+), jQuery, Bootstrap, Knockout.js
- **Advanced Styling:** SASS/SCSS, CSS Grid, Flexbox, Responsive Design, Cross-Browser Compatibility
- **UI Components:** Custom UI Components, Modular CSS, Theming, Accessibility (WCAG Compliance)
- **Core Frameworks:** Node.js (Basic), React.js (Basic), Angular.js (Basic)

#### Additional Skills:

- **Package Management:** npm, Yarn
- **Performance Optimization:** Lazy Loading, Code Splitting, Minification, Caching Strategies
- Problem Solving
- **Design Principles:** Responsive Design, Cross-Browser Compatibility, Mobile-First Design, Prototyping

### Additional Experience In PhotoShop CC

In addition to my front-end development expertise, I possess advanced skills in Adobe Photoshop, which I leverage to achieve design elements that might be challenging to implement purely through code. This proficiency allows me to create

custom graphics, optimize images, and refine visual details, resulting in polished and professional user interfaces. By seamlessly integrating these design enhancements into the development process, I ensure that the final product not only meets technical specifications but also delivers a visually compelling and user-friendly experience. My ability to bridge the gap between design and development enables me to bring creative visions to life, elevating the overall quality of the projects I work on.

## **Projects**

### **Banking Application UI Development**

- Developed and enhanced UIs for two banking applications, including a project focused on OBDX UI creation.
- Integrated responsive design techniques to ensure optimal performance across devices and platforms.

### **Hospital System Web Applications**

- Designed and implemented front-end interfaces for US hospital systems, focusing on usability, accessibility, and performance.
- Worked closely with stakeholders to deliver custom features tailored to client needs.
